COVID-19 AND FLU VACCINATION UPDATES

The Ministry of Health and Human Services (MHHS) would like to inform the public of the following updates on COVID-19 and flu vaccination:

- Bivalent Pfizer vaccines are now available for 5 years old and above.
- Only the monovalent Moderna vaccines are available at this time. Call the hotline (488-0555) for updates on bivalent Moderna availability.
- Fuel vouchers are now available for those who receive their COVID-19 vaccines. For individuals waiting for their vouchers, please call 775-2972 to get your fuel vouchers.
- Flu vaccines will be available at the POD (National Gym) for the general population starting November 15th, offered concurrently with COVID-19 vaccines according to previously published COVID-19 vaccination schedule for October and November.

MHHS encourages everyone to get vaccinated or get boosters when eligible for best protection against COVID-19. Getting a COVID-19 vaccine after you recover from a COVID-19 infection provides added protection against COVID-19. You may receive your COVID-19 vaccine or booster at least 3 months after a COVID infection. It is also safe to get your COVID-19 vaccine and your flu vaccine at the same time.

If you have any questions or need further information, please call any of the following numbers: 775-1760, 775-2898, or 775-0084.
